

Sustainability Policy

Energys Group (comprising of Energy Conservation Solutions Ltd & Energys Group Ltd) was created to reduce energy consumption, with sustainability at the top of our agenda. We are committed to sustainable development (meeting the needs of the present without compromising the ability of future generations to meet their own needs) as a guiding principle within our work. Concern for the environment is an integral and fundamental part of this commitment. Our aim is to reduce the impact on the environment from our operations. We undertake this by developing low energy products with our manufacturing partners and then demonstrating the benefits to our potential customers. This is done through site surveys which will detail their potential energy savings.

Our policy is to only provide products that will save energy.

When we choose cars and vans for the business, energy efficiency is a major consideration and we do have an electric vehicle in our fleet.

We are also investigating ways of reducing paper consumption.

In all our actions as a business we endeavour to improve sustainability of everything we undertake.

We will assess the environmental impacts of our operations and set objectives and targets in order to improve our environmental performance. We will regularly review these targets. We will:

- promote responsibility for the environment within the organisation and communicate and implement this policy at all levels within the workforce
- reduce the use of energy, water and other resources
- minimise waste by reduction, re-use and recycling methods
- comply with all relevant environmental legislation/regulation
- ensure that our policies and services are developed in a way that is complimentary to this policy
- identify and provide appropriate training, advice and information for employees and encourage them to develop new ideas and initiatives
- provide appropriate resources to meet the commitments of this policy

Energys Group is ISO:14001 accredited through NQA. This is due for renewal on 23rd July 2023.

Signed: 

Date: 1st November 2022

Kevin Cox
